For the *Estonia*, sailing August 31, I have examined 759 emigrants. No cases of illness were found among them at first examination; 270 pieces of baggage have been disinfected.

No quarantinable disease exists in Libau.

## SWEDEN.

*Report from Stockholm—Cholera case imported by steamship from St. Petersburg.*

The following is received from Minister Graves, under date of August 18:

In accordance with the international agreement of Paris, December 3, 1903, the Swedish Government reports 1 case of cholera at Stockholm.

The case is not severe. It occurred in a person who arrived at Stockholm by steamship from St. Petersburg August 10, and the disease developed August 12.

All proper precautions were taken.
